|--|----------------|
| Service/Hourly charge (CT SP-1/SP-2 licensed pool tech) | \$300 per |
| *Travel time is not included in the rate and will be charged separately. | man hour |
| Weekly service – Residential | \$185 to \$225 |
| Weekly service – Commercial | \$250 to \$300 |

Water level must be high enough to start pool. Please make sure we will have access to the pool, all needed equipment and all electricity is on. Make sure propane is at least 40%. Return visits due to inaccessible equipment/ electricity or low water will be charged at service charge rates or parts will be used off truck and charged. Deck equipment may be left off if anchor socket condition does not provide safe installation. Additional charges may apply for needed repairs or replaced equipment.

Water Bag (tarp) Covers

Water bag covers must be free of water and debris.

If the cover is pumped and debris removed, we will not charge any extra, if we are to pump the cover and remove leaves and debris, we will charge an **additional \$225/per ½ hour.**

Payment

We require a credit card on file when scheduling all pool services. Arrangements can be made for alternate payment due on service completion. If no alternate payment is made, the card on file will be charged.

Any declined payment or outstanding payment over 3 days after the scheduled service will be charged a fee of \$100.00.

Please let us know upon scheduling if you have a need for alternate terms.
